EXPERIENCE:

MERN Stack Developer

Fayn Global – Chennai, India

April 2024 – Present

- Designed and developed e-commerce platform features similar to Justdial, integrating React.js with Node.js back-end.
- Managed and optimized vendor data, product listings, and user interactions.

- Conducted UI/UX enhancements, improving website performance based on feedback.
- Implemented API integrations for seamless data flow between client and server.
- Performed testing, debugging, and code reviews to ensure high-quality delivery.

Freelance Full Stack Developer

November 2023 – April 2024

- Delivered custom web solutions using React.js, Next.js, and Node.js for various clients.
- Developed a tourism and travel website featuring dynamic content, trip bookings, and destination details, utilizing React.js and MySQL for database management.
- Built and optimized databases for tourism packages, ensuring seamless user experience and booking functionality.
- Created responsive, dynamic websites and e-commerce applications for clients.
- Focused on end-to-end project management from requirements gathering to final delivery.

Full Stack Developer Trainee

Login360 – Velachery, Chennai

2023

- Completed 8-month full-stack development course, gaining expertise in React.js, Node.js, Express.js, and MySQL.
- Developed real-world projects, following best practices in full-stack development and responsive design.
